January 7, 2015

Dear Parents/Guardians,

In October 2014, a steering team was established to conduct an independent review into the circumstances surrounding the death of a student inside North Albion CI. In addition, the team is also reviewing how the Toronto District School Board can be responsive and current to best support safety and care for all students and staff, both before and after critical incidents.

As a part of this review, parents/guardians, students and community members are invited to participate in a Community Forum to discuss how to improve school and community safety.

You are invited to the following **Safe Schools and Engaged Communities Forum:**

13 January 2015
David and Mary Thomson CI
2740 Lawrence Ave E, Scarborough, ON
6:30 pm - 8:30 pm

15 January 2015
Thistleton CI
20 Fordwich Cres, Etobicoke,
ON
6:30 pm - 8:30 pm

Please contact 416-395-8155 if you require an interpreter or childcare at the meeting.

Your feedback is very important and will inform the team as they prepare a report and provide recommendations on how the Toronto District School Board can continue moving the gains made in creating safe and caring school environments out to our school communities.

If you are unable to attend one of the above meetings, you can email your feedback to tdsb@executekinternational.com.
