

## e-Learning Courses for TDSB Students

If you are interested in taking a Grade 11 or 12 online course as part of your timetable, the e-Learning Day School program is for you. You may take one e-Learning course each semester as part of your regular day school timetable.

Students can thrive in a digital classroom that is engaging, learning-focussed and inclusive. We invite you to become part of a digital community that features continuous learning, positive communication and ongoing collaboration. e-Learning courses have been developed by the Ministry of Education and are delivered by regular TDSB day school teachers. They teach the content of the course, provide tutorial help and work with students one-on-one if requested.

### Courses designed for you

You can see the list of courses available to you in Semester 1 and Semester 2 on the e-Learning Day School [website](#).

### Setting you up for success

Before you begin an e-Learning course, you will access an introductory module that shows you how to navigate Brightspace, the online learning program used for all our courses. Following the introductory module, you will attend an [online orientation](#) session with other students in your class to meet your e-Learning teacher and find out about the make up of the course—what will be taught, how your achievement will be evaluated, and what is expected of you.

### Questions?

You will find answers at the TDSB e-Learning Day School [website](#). You can read about *Starting Your Course*, *Student Orientation*, and *FAQs*.

### Registration Dates

Semester 1: May 27 to September 23, 2020

Semester 2: August 31 to February 23, 2021

### Next Steps

- ✓ Login to e-Reg using your TDSB student number and password
- ✓ Select the requested course from the drop down “e-Learning Day School 2020/21” course list
- ✓ Print the Permission form and ask your parent/guardian to sign
- ✓ Email a photo of the permission form to your school Guidance Counsellor to request they approve your selection
